4. PHA Rent Determination Policies

[24 CFR Part 903.7 9 (d)]

Administrative Plan, The City of Pensacola, Department of Housing and Community Development, Pensacola, Florida, November 1, 1992 and Subsequent Amendments and the contents of this PHA plan.

Payment standard will equal the annually published fair market rent and its effective date. The City will evaluate the raising or lowering of the payment standard based on availability in the rental market for units eligible for the Section 8 Housing Assistance Payments (HAP) Program. If appropriate, the payment standard may not equal the fair market rent, but will always be within the regulatory requirements of not less than 90% or more than 110% of the FMR.

Fair Market Rent

Rent including utilities (except telephone), ranges and refrigerators, and all maintenance, management, and other services, which would be required to be paid in order to obtain privately owned, existing, decent, safe, and sanitary rental housing of modest (non-luxury) nature with suitable amenities. Appropriate Separate Fair Market Rents as annually established in the Federal Register for dwelling units of varying sizes (number of bedrooms) will be used.”

Method of Determining Portion of Family’s Annual Income to be Paid by Family:

The method of determining the Family’s annual income, deductions and allowances is the same for a certificate holder and the voucher holder.

The estimate housing voucher subsidy is determined by using the applicable payment standard minus thirty percent of the voucher family’s adjusted gross monthly income.

The minimum Total Tenant Payment (TTP) is determined by:

1. Calculating the gross rent (rent to owner plus utility allowance for utilities not furnished by owner);
- (1) Calculating the minimum Total Tenant Payment which is ten percent of the monthly gross adjusted income;
- (2) Total Tenant Payment then determined by the greater of:
 - i. Gross rent minus the estimate voucher subsidy;
or
 - ii. The minimum Total Tenant Payment (TTP).

Rent Adjustments

Contract rents shall be adjusted upon request to the HCD Department by the owner, provided that the unit is decent, safe and sanitary condition and that the owner is otherwise in compliance with the terms of the lease and contract. This request shall be accompanied by a certification signed by the owner and the family. Special adjustments must be approved by HUD.

Upon expiration of each contract (and lease), new contract amendments (and lease amendments) will be executed provided that the family desires to continue to occupy the unit, and the unit passes inspection, etc. Contract rents for these new contracts and lease renewals will be limited to rent reasonableness criteria.

Adjustments of Allowance for Utilities and Other Services

At least annually, the HCD Department shall determine whether there has been a substantial change in utility rates or other change of general applicability, and whether an adjustment is required in the Allowance for Utilities and other services. If the HCD Department determines that an adjustment should be made, the Housing Department shall establish a schedule of adjustments taking into account size and type of dwelling units and other pertinent factors. The HCD Department shall then determine the amounts of adjustments to be made in the amount of rent to be paid by the affected families and the amount of housing assistance

payments to the owners and shall notify the owners and families accordingly.’”

Attachment:

“Policy - Fair Market Rent: (Rent Reasonableness)

Reasonable rent to owner shall be determined comparable to unassisted units prior to the initial leasing, any request for increase, and/or at the HAP contract anniversary. Comparability with unassisted units shall be determined by evaluating location, quality, size, unit type, age, any amenities, housing services, maintenance and utilities provided by owner. A “points per rent” rating scale will be created for each bedroom size by random survey of the overall unassisted housing market and reassessed annually. This scale will establish by surveying a minimum of 25 different housing units for each bedroom size, taken from random areas. Dollars per point will be established from the scale by averaging the total points and rental dollars (less any utilities), then dividing the average rental dollars/average rental points.

A Rent Comparability Form will be established, that assigns point values for the various rating elements and allowances to utilities provided. It shall be used to evaluate all units including: comps, initial lease ups, and annually inspected units. Each individual unit shall be rated, assigned a dollar figure for the assigned points and then factor in any utility payments provided. Requested rent for assisted housing units will be rated using the comparison chart. And reasonable rent shall be determined by comparing the total points of the assisted unit to the rating scale for unassisted units of similar bedroom size. (See attachments.)”
